

Club Activities

Recognizing the social nature of middle school students and capitalizing on their need to move and do, Newport News middle schools offer a variety of enrichment activities that expose students to higher level thinking, real world application, and fun. Students are encouraged to become actively involved in establishing agendas and goals, recruiting and organizing its activities. Every club and activity offers students numerous opportunities to develop and hone their leadership skills, and explore and develop new talents to highlight their strengths. Most clubs and activities are held after school, twice a month. To ensure that all students have the opportunity to participate, bus transportation is provided for all activities.* (*Excerpted from the NNPS Middle School brochure.)
